CARING FOR YOU IN YOUR HOME

DEMENTIA CARE

Our trained dementia care workers are very experienced in helping clients and their families manage the daily challenges associated with the various types and stages of this condition. We are absolutely committed to caring for those who live with dementia in their own home.

Continuous learning is required when providing dementia care. Therefore, we work closely with associated organisations to develop on-going training programmes for our care workers, enabling us to better support both clients and care workers.

PERSONAL CARE

Our care workers are fully trained to provide assistance in all areas of personal care, including bathing and showering; dressing and grooming; oral hygiene and continence care. They are also trained in safe manual handling techniques and, for clients with restricted mobility can assist with hoist transfers.

COMPANIONSHIP

Social interaction is an important aspect of staying healthy and positively impacts our physical, emotional and mental wellbeing as we age. Companionship provides a valuable social benefit by decreasing isolation while also encouraging clients to stay as healthy as possible. Care Workers are specifically matched to clients through their interests and personalities, which is the foundation of this service.

STANDARD OF CARE

All of our care workers undergo a rigorous recruitment selection process that includes reference checking and Garda vetting. We provide ongoing support and training to meet the requirements of FETAC level 5 accreditation. Care workers are also supported by Nurse Managers and undergo regular reviews and spot checks of their work to ensure our high quality standard of care is never compromised.

Care Managers are available for clients and family members to contact 24 hours a day - 365 days a year.

Manor Homecare provide all of the necessary liability insurance coverage so clients and their families are fully protected.

OUR TEAM

All staff undergo rigorous disclosure, vetting and reference checks, together with ongoing training to ensure they meet the qualifications and high standards of performance and care that we provide for clients and families:

All of our qualified Care Workers are:

- Reference checked.
- Fully trained to minimum FETAC level 5.
- Insured.
- Certified in safe manual handling.
- Garda Vetted.
- At Manor Homecare our Care Workers work in strict adherence to the company's policies, procedures and guidelines.

NURSING MANAGERS

Our Nurse Managers come from highly trained backgrounds from Nursing or Social care. Client needs are assessed by our Nurse Managers and their care reviewed every one to three months according to specific needs or dependency.

TAX RELIEF

The Revenue Commissioners allow you or your family to claim tax relief at the top rate of tax on home care costs up to a maximum of €75,000 per year. This will significantly reduce the cost of the service provided and may be claimed immediately in your weekly or monthly tax credits, or at the end of the year.

Our dedicated team will talk you through the process and assist you when completing the relevant forms.

For more information, including how to apply, visit the Citizens Information website - www.citizensinformation.ie
